

Locations and R-Values

This appendix gives the locations as listed in the *Glossaire des Patois Francoprovençaux* (Duraffour 1969), as well as the number of word final [ʁ]-less occurrences found from the list of eight possible words. They are grouped in descending order from most occurrences of [ʁ]-less to [ʁ]-ful to least, along with the ratio as a percentage of [ʁ]-less to [ʁ]-ful forms listed in the GPF. Only localities with a sum of least 4 word forms (50% of the possible words) are provided.
